**Enhance USB devices by
the addition of Ethernet**

**USB Client supports
most Mobile Computers**

**No Separate Power
Supply Required**

10/100 Mbps Ethernet

**Preferred Solution for
high-speed Applications**

Designed for the Latest Devices

As devices continue to get thinner and lighter, space for I/O interfaces such as USB and Ethernet ports comes at a premium, requiring more functionality from smaller connections.

Portsmith has responded to this challenge with our *PSA1uB1E-E*, a field-rugged fully encapsulated USB to Ethernet Adapter which easily enables devices with a Micro-B USB port with direct wired Ethernet connectivity.

Portable High-Speed Networking

Powered solely through the USB port of the computing device, the *PSA1uB1E-E* is perfectly designed to go where the workforce goes. Whether in the warehouse, remote office, field research facility or oil rig, this unique adapter is an invaluable high-speed link to the secure wired network.

USB Micro-B OTG Host

RJ-45 Ethernet Port

Encapsulated
Electronics

Samsung Galaxy Tab Pro 8.4

Ethernet Port

- 10/100 Mbps Ethernet
- RJ-45 Connection

USB Port

- Micro-B wired OTG Host
- 100mA Power Draw

Environmental

- Temp 0 – 50 C°
- Humidity 90% Non-condensing

Package Contents:

- (1) PSA1uB1E-E Adapter
- Warranty and Information Card

Regulatory and Certifications

- FCC Class B, ICES-003
CE Mark, RoHS
